

To Our Students and Families:

During the last week or so, you have likely received emails from your child's pediatrician office, school, employer, sporting association, and even places like Target! We know how important your family's health is to you and us. We take great pride in our work with your family and wanted to let you know that we will continue to monitor the following sites for the most updated information:

[GA DEPT OF PUBLIC HEALTH](#)
[CDC](#)

We have taken specific steps in our office to wipe down all handles, faucets, and tables with disinfectant wipes **DAILY**. We have also provided hand sanitizer for students, families, tutors, and test-prep specialists to use often throughout the office. We've even introduced a new greeting to avoid shaking hands! 😊

With many venues canceling and several schools throughout Atlanta closing off and on, it's growing more difficult to get the answers to mounting questions you may have regarding the college application process and preparing for the ACT® or SAT®.

At this time, we are **no longer providing services in-person** until it is safe to do so. Our team is ready to provide any and all levels of support through virtual methods.

All of our college planning students will continue to meet through digital means.

Our one-on-one ACT® or SAT® test-prep is strong as ever and we are prepared to serve our families through digital means if you so choose. We are still preparing for the June ACT® and SAT® test administrations. For those who would like to take it slow and easy with online, self-paced methods, we encourage families to consider our currently discounted ONLINE TEST-PREP available from our website.

Please contact me if you have any questions and we hope to serve you soon!

Thank you,

The **Capstone Educational Consultants** Team
